Test Policy, Endpoint Connector For Download - Up to 3 Different Connectors
- ✓ **Secure Malware Analytics: Threatgrid Cloud**
Pilot SaaS App Connector, Alerts, And Reports Create Pilot Policy For Enforcement (Remove External Users)
- ✓ **Cloudlock: Secure Cloud Data**
Establish 1 Source Connection With AMP Connectivity, Stealthwatch Connectivity (If Applicable), Umbrella Connectivity (If Applicable)
- ✓ **Umbrella**
Level of Protection - Local DNS Forwarding, DNS Reroute, Site & Internal Network Custom Site Blockage
- ✓ **Duo**
Configure Sub-Domain, Authentication Source, Authentication Proxy, Test Proxy, Email Domains, & Cloud Application
- ✓ **Secure Email**
With Cisco Secure Email, Customers Combat Targeted, Zero-Hour Ransomware & Malware That Evades Initial Point-in-Time Detection
- ✓ **SecureX**
Add & Configure 1 Dashboard, Add 1 Orchestration Workflow, Integrate Up To 3 Supported Modules, & Configure 1 Customer User

Scope of Work

Engagement Scope of Work Summary:

- ✓ Mentored Install Engagements
- ✓ Project Plan
- ✓ Project Recommendations
- ✓ Final Documentation

Deliverables

- ✓ Project Schedule
- ✓ Design Documents
- ✓ Configuration Documents
- ✓ As-Built Documents
- ✓ Knowledge Transfer Session
- ✓ Project Acceptance

XENTAUERS

NIST Cyber Security Framework Implementation Services

Engagement Activities

Curation Call

The engagement begins with a project team meeting to validate client goals and define logistics for the interactive workshop.

Project Kickoff

Kick off the project with client and Cisco teams. Review scope, expectations, deliverables, and ensure all pre-work is complete. Align the proper partner and client stakeholders and confirm logistics for the interactive workshop.

Technical Sessions

Xentaurus will conduct a remote interactive technical session that provides an overview of the solution, architecture and use cases. Sample case studies will help align design with client's business requirements.

Project Closeout

Xentaurus will coordinate a review of all deliverables and artifacts developed during the project.

Add-On Services

Training

Managed Detection
Respond

Integrations
